# Nu Html Checker

This tool is an ongoing experiment in better HTML checking, and its behavior remains subject to change

Showing results for contents of text-input area

Checker Input

Show ☑ source ☐ outline ☐ image report

[Options…]

Check by [text input ⌄] ☐ css

```
            // When the user clicks on the button, scroll to the top of the
document

            function topFunction() {
              document.body.scrollTop = 0; // For Safari
              document.documentElement.scrollTop = 0; // For Chrome, Firefox, IE
and Opera
            }

            // Cookies and their buttons

            function w3_close() {
              document.getElementById("cookiesBar").style.display = "none";
            }
          </script>
```

[Check]

Use the Message Filtering button below to hide/show particular messages, and to see total counts of errors and warnings.

[Message Filtering]

Document checking completed. No errors or warnings to show.
